

Petition the State and local governments for the first state rail-trail

Help establish the first NC State Rail-Trail. The Friends of the Hendersonville to Brevard Greenway have recently formed and are actively seeking the creation of a trail on the discontinued 18 plus mile Norfolk-Southern Ry corridor between those two cities. You can help by signing an e-mail petition at <http://hbtrail.org/> and at the same time you will also be provided a link to get more information about the effort and the many benefits that such a trail would produce.
